

# The Undiagnosed Diseases Network

## What to do:

1. Encourage your patient to submit their case online.
2. Write a letter of recommendation detailing your patient's journey. It must be in English, signed, and on letterhead.
3. Reach out to the UDN Helpdesk if you need help!

## UDN Helpdesk at Harvard

Hours: 9am – 5pm ET (Mon-Fri)

Email: [UDN@hms.harvard.edu](mailto:UDN@hms.harvard.edu)

Phone: 1-844-746-4836

<https://undiagnosed.hms.harvard.edu/>

Is your patient

## UNDIAGNOSED?

People with undiagnosed diseases often have seen several doctors and still do not have answers for their health.

The Undiagnosed Diseases Network (UDN) is a **research study** that may be able to help your patient find a diagnosis.

The UDN has three main objectives:

Improve diagnosis and care for patients with undiagnosed diseases

Research causes of undiagnosed diseases

Create research community to identify improved options for patients
